Subject: Fires Near LANL
Date: 06/27/2011 10:23 AM

Good morning from Cimarron, NM (home of Philmont Scout Ranch). I'm about a 2-hour drive from LANL and have been in contact with my DOE contacts regarding the fires near the lab. The lab is closed today and there's a voluntary evacuation for the cities of Los Alamos and White Rock (the town down from the lab). Awaiting for email update from the lab and will send when available.

You can call me at 972.935.8650.
